Plagiarism

definition

- To **cheat** is to seek personal advantage through plagiarism or fabrication.
- **Plagiarism** means passing of someone else’s work as your own, in an examination situation.
- **Fabrication** means creating something which is not true.

*Why do people plagiarize?*

- Lack of time.
- Insecure of how to construct an academic text or insecure of writing in English.
- Mistakes – copy & paste
- Worried to fail
Remember

- A quotation, paraphrase and summary of another’s work need in-text acknowledgement and inclusion in a reference list.
- The reader should be able to distinguish the work/text/arguments/pictures that you produce from the work of another person.
- You can not submit the same piece of work for two different assignments.
- Choose one reference system and stick to it
- The reference list should only contain the sources that are cited in the text of the document.
- Teachers may have different requirements regarding referencing. Consult your teacher!
- Check with your teacher what kind of collaboration is allowed.
- Remember to add quotation marks, when you cite someone.
Lund University and plagiarism

- Guidelines and regulations on plagiarism and deceitful plagiarism in first-, second- and third-cycle education at Lund University
- URKUND

What happens if you plagiarize?
Help and support to avoid plagiarism

OSCOLA - The Oxford Standard for Citation of Legal Authorities - OSCOLA 4th ed.
